

(L)

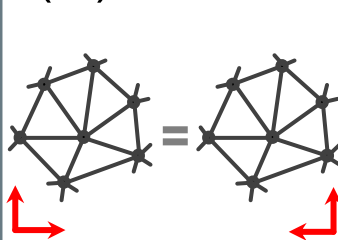

Locally bounded
receptive area

(P)

Permutation
symmetry

(O)

Orientation
consistency

(E)

$$\frac{d}{dt} E \leq 0$$

Non-increasing
energy

Mesh Field Theory

$$\frac{\partial F}{\partial z}(z) = \underbrace{(J(z) - R(z))}_{\text{FIX sparsity}} \underbrace{G(z)}_{\text{PSD/PD}}$$
